Basic Company Information

Krajská zdravotní, a.s. (KZ) was established on September 1, 2007 by transforming five hospitals into one entity.

Council of the Ústí Region, which is the sole shareholder, decided to create this umbrella company. Council of the Ústí Region decides on the matters of the sole shareholder within the competence of the General Meeting of the Company. Five hospitals, which in the period before the transformation fell as independent entities under the competence of the Ústí Region, swapped their status from institutions receiving contributions from the State Budget to branch enterprises of Krajská zdravotní, a.s. Specifically, these are Děčín Hospital, Masaryk Hospital in Ústí nad Labem, Teplice Hospital, Most Hospital, and Chomutov Hospital.

On April 1, 2013, the KZ Medical Transport Service was established, having been taken over by Krajská

General Manager of Krajská zdravotní, a.s. MUDr. Petr Malý, MBA

zdravotní, a.s. from the Medical Rescue Service of the Ústí Region. Patient transports are provided based on medical transport orders issued by the primary physicians.

As of September 1, 2015, the former aftercare hospitals in Ryjice and Zahražany also merged with Krajská zdravotní, a.s. and

newly became Aftercare Departments.

Ryjice Aftercare Department belongs to Masaryk Hospital in Ústí nad Labem, Zahražany Aftercare Department falls under Most Hospital.

On April 1, 2021, Litoměřice Hospital was incorporated into Krajská zdravotní, a.s. and became the sixth branch enterprise under the management of the company. By its takeover, the agreement concluded between the Ústí Region, Krajská zdravotní, a.s. the City of Litoměřice, and Litoměřice Hospital, a.s. was effectively completed.

As of July 1, 2021, the hospital in Rumburk became a part of Krajská zdravotní, a.s. as a separate workplace of Masaryk Hospital in Ústí nad Labem.

Chairman of the Board of Directors of Krajská zdravotní, a.s. MUDr. Ondřej Štěrbá

With regard to the geographical distribution in the region, the hospitals of Krajská zdravotní, a.s. form the backbone axis of medical facilities for the entire Ústí Region. Through the transformation of hospitals, it was decided to significantly change the way of organising and securing the provision of healthcare in the Ústí Region. Thus, a unique medical facility was newly created, through which an accessible and at the same time maximally efficient and economical network is ensured for the inhabitants of the Ústí Region, providing health care whose quality corresponds to the most modern trends in medicine.

Krajská zdravotní, a.s. is the largest provider of hospital

care in the Czech Republic and the largest employer in the Ústí Region. As of December 31, 2022, the total number of employees in the company is 9,077.

1,222 physicians, 46 pharmacists, 3,050 nurses, and 2,734 other health care professionals work in Krajská zdravotní, a.s. 237 physicians in Krajská zdravotní, a.s. have different citizenship than the Czech Republic, of which 76 physicians are citizens of the Slovak Republic.

Hospitals of Krajská zdravotní, a.s. dispose of a total of 3,978 beds, of which 2,935 are acute care beds, 364 are so-called ICU beds and 642 are aftercare beds, 37 are step-down unit (NIP) and lon-

g-term intensive nursing care (DIOP) beds.

From September 1, 2015, 228 aftercare beds were included in connection with the merger of the former Aftercare Hospitals in Most and Ryjice, and from 2017, 27 NIP and DIOP beds in Most + 10 aftercare DIOP beds in Ryjice – ICU from October 2017.

From July 1, 2019, the bed count of the Masaryk Hospital in Ústí nad Labem was expanded by 25 beds of the Cardiac Surgery Department – these are 18 standard and 7 ICU beds.

From April 1, 2021, the bed count was expanded by 555 beds of Litoměřice Hospital and from July 1, 2021 by 127 beds of Rumburk Hospital.

FZS UJEP and Masaryk Hospital Clinics

A new building of the Faculty of Health Studies was opened in the grounds of the Masaryk Hospital in Ústí nad Labem in September 2022

The clinics of the Faculty of Health Studies of J. E. Purkyně University in Ústí nad Labem (FZS UJEP) and Krajská zdravotní, a.s. – Masaryk Hospital in Ústí nad Labem and the Department of Biomedicine and Laboratory Diagnostics are common teaching and scientific bases and workplaces for the university hospital practice. The benefit is the improvement of teaching, more intensive joint scientific work, and development of top health care in the region. Thus, the gradual transition of the Masaryk Hospital to a university-type hospital is also taking place through joint efforts.

In the middle of the Masaryk Hospital, was opened new building of the Faculty of Health Studies, which will represent one of the best-equipped training centres for paramedical health care disciplines in the Czech Republic.
